We currently have over 120 fee-earners.

HWB's regulatory team advises on both contentious and non-contentious matters, and often in both capacities for the same clients; therefore making us unique in our ability to work with clients on all of their regulatory and compliance needs.

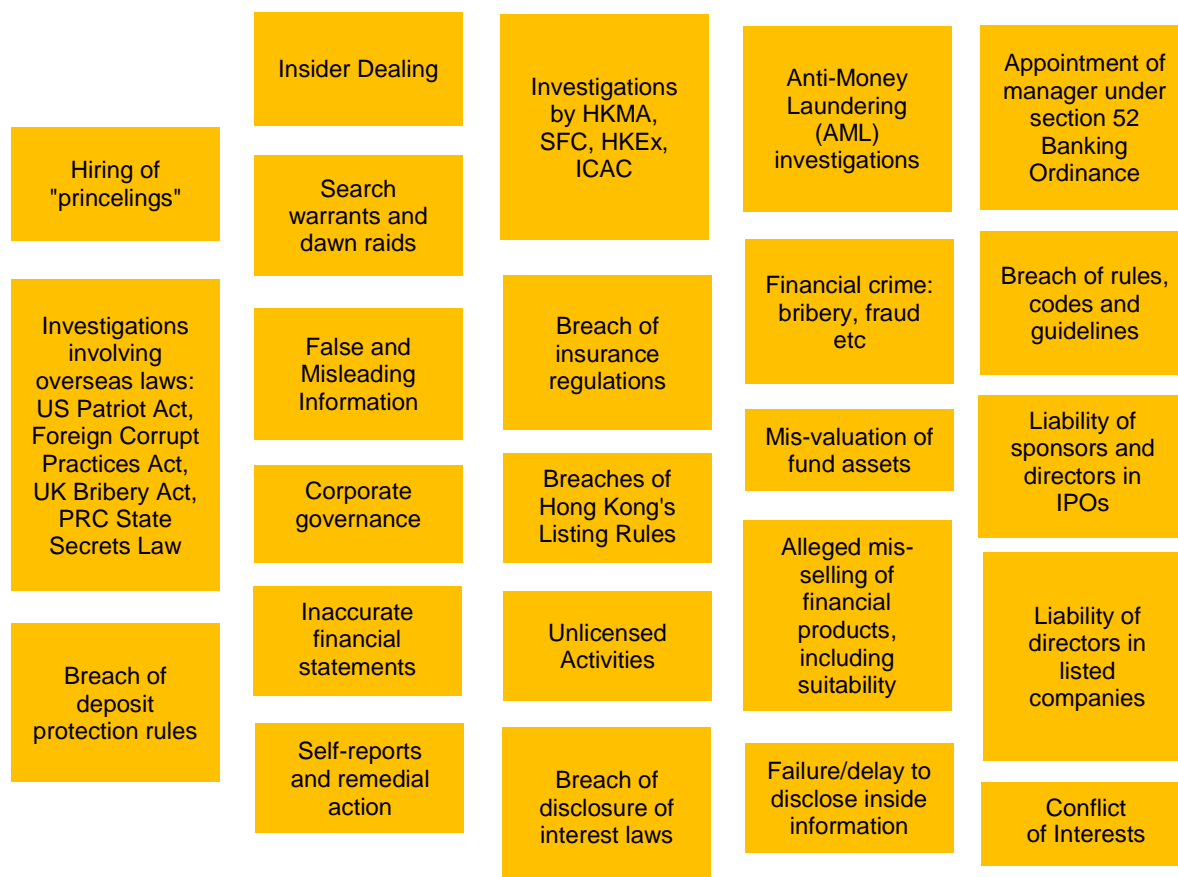

Our clients include banks, brokers, listed companies, asset managers, financial advisors, start-ups, "fintech" companies, insurance companies and established businesses. We also advise senior management such as directors, responsible and executive officers, chief executives and licensed individuals.

## Regulatory Investigations and Prosecutions

Our team has extensive experience representing clients (including company directors and officers) in regulatory investigations and prosecutions by the Securities and Futures Commission, the Hong Kong Monetary Authority, the Privacy Commissioner, the Hong Kong Stock Exchange, the Independent Commission Against Corruption, the Commercial Crimes Bureau and self-regulatory bodies.

We also run or assist clients in internal investigations, working closely with in-house legal & compliance and risk management departments. Where necessary, we appoint forensic accountants, computer experts and specialist investigators. We draft reports to regulators, advise on remedial action, negotiate settlements and handle issues with stakeholders. We see the issues holistically and also advise on ancillary/consequential legal proceedings such as injunctions and "gagging orders".

Here are some examples of our experience:

## Advisory Services for Financial Institutions and Listed Companies

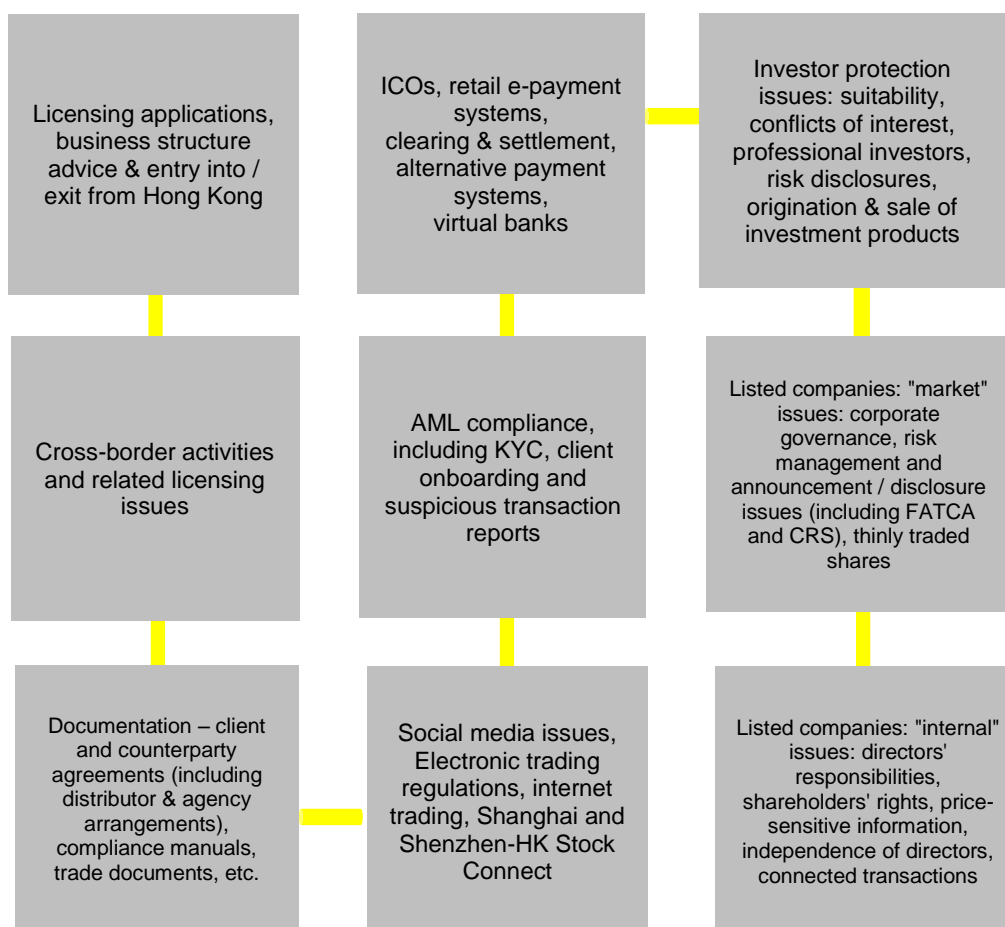

We regularly conduct regulatory gap analyses and carry out operational and compliance reviews so that our clients can successfully navigate through the numerous laws and regulations that apply to their businesses.

We work with clients on licensing and various regulatory applications, business structuring and business conduct issues. We help clients design internal controls and we draft documents such as client and third party agreements, compliance manuals, dawn raid procedures and so on.

We advise listed companies, and their directors, on their obligations under the Hong Kong Listing Rules and under Hong Kong's securities laws.

We assist clients to establish offices in Hong Kong and also to exit from Hong Kong, handling various issues such as the application for or relinquishment of regulatory licences, dealing with counterparties and auditors and handling employees.

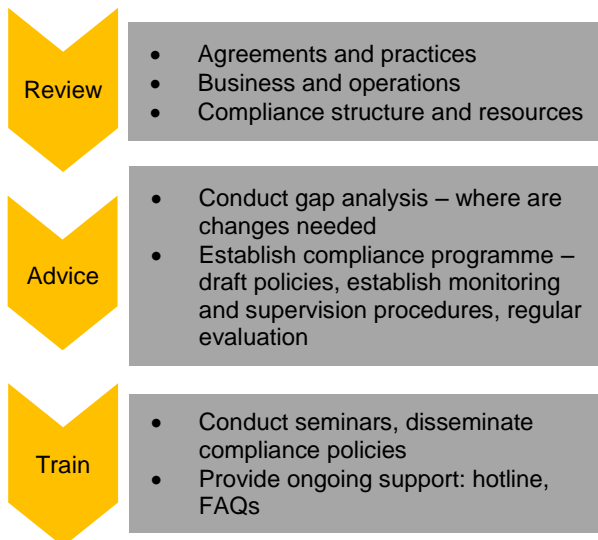

Here are some regulatory issues we have worked on recently:

## Competition

We have considered competition law issues for numerous businesses in diverse industries, amongst others:

- Hong Kong businesses with substantial market shares on the impact of the second conduct rule;
- a multinational engineering and electronics company on the impact of the first and second conduct rules and "do's and don't's";
- a business in the real estate industry on the impact of the first conduct rule;
- businesses in the entertainment/food industries on the first conduct rule (particularly vertical agreements); and
- represented Hong Kong employees of a business in the travel industry in interviews with an overseas competition regulator.

## Financial technology or, "fintech"

The regulatory minefield with respect to fintech is complex and needs to be navigated carefully.

We have assisted various international clients with their fintech initiatives, for example, ICOs, utilising blockchain technology money service operators who work with cryptocurrencies and financial advisors who consider cryptoassets.

We have done work in the following fintech areas:
